AEGD-Advanced Education in General Dentistry

In the past, the following programs have considered admitting graduates of international dental schools.
Please note this information is subject to change. Contact the school directly for the most accurate information.

The vast majority of states require either graduation from, or at least two years of study at, an accredited
pre-doctoral dental education program to enable graduates of dental schools in other countries to satisfy the
educational requirements for licensure. Some states will accept completion of an advanced education
program. For further information see the Summary of State Educational Requirements for International at:
