

Suggested template for test Instructions

Dear student,

Please read the following instructions carefully before you start the test:

Test information

- This is a first assessment test for course _____.
- The duration time of the test is (1:30), one hour and thirty minutes.
- The test will be available on Saturday (20/3/2020)– from (7:00pm) to (8:30pm).
- The test topics include chapter 1 and 2.
- The test includes two different types of questions (20 questions of multiple choice) and (30 questions of “true, false”).
- The multiple choice questions might contain pictures, audio files(mp3) or equations.
- (can, can't) take the test from mobile application.

Test settings

Please pay attention to the test settings as follows

- You have only one attempt to take the test.
- You can solve only one question at a time and the questions will be displayed one after one.
- Students are prohibited from going back to previous question after submission.
- Make sure that, each question is saved before moving on to the next question.
- The test has a timer (**Green** indicates that, time is sufficient to solve the test. **Yellow** indicates that, the test time is decreasing. **Red** indicates that, the test time is about to finish.
- Click on "Save and Submit" button before exiting the test.
- The test score will not appear to you directly, and it will be announced at a specific time, so do not worry.

In the case of any technical problems, we kindly ask you to take a “screen capture” of your screen with the apparent problem and contact the coordinator/professor through e-mail. With the following implementation:

- Make sure your internet connection is active.
- Do not close the test web page, if the Internet is disconnected.
