

To share your desktop or applications to the virtual classroom system

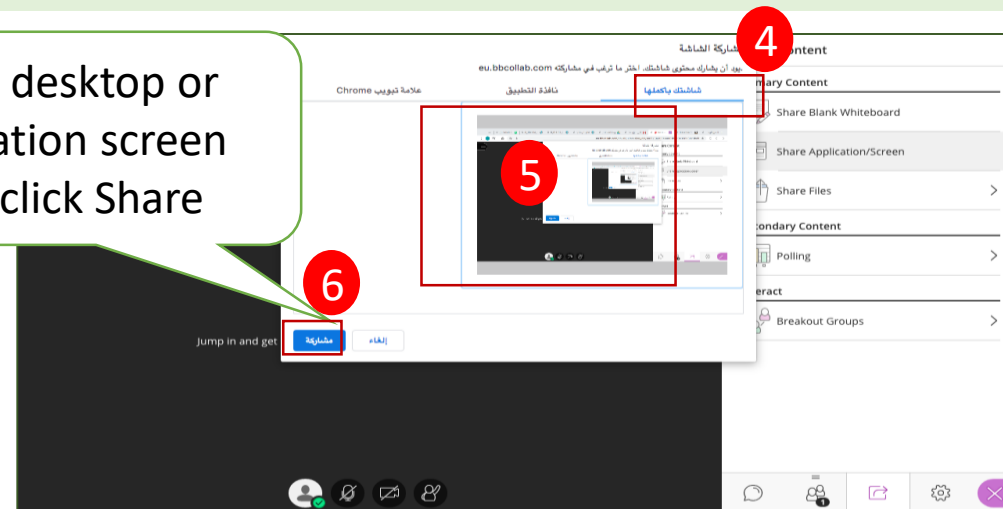

Blackboard collaborate Ultra

Blackboard®

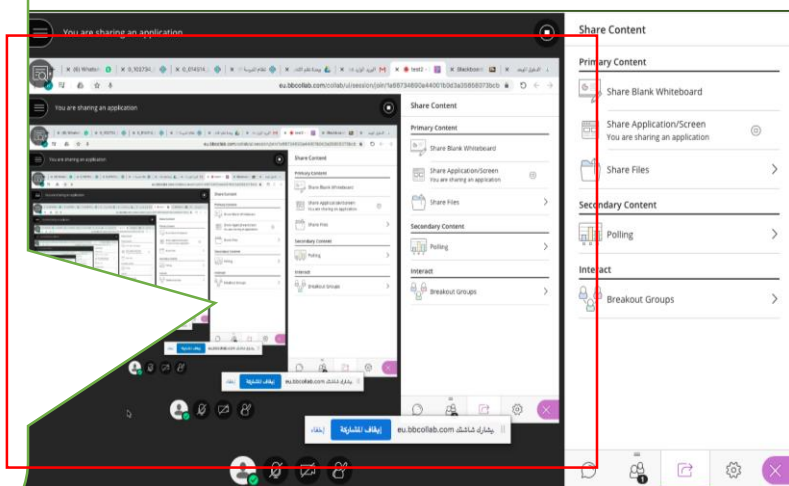

From the side menu
select Share content
then share the
application / desktop

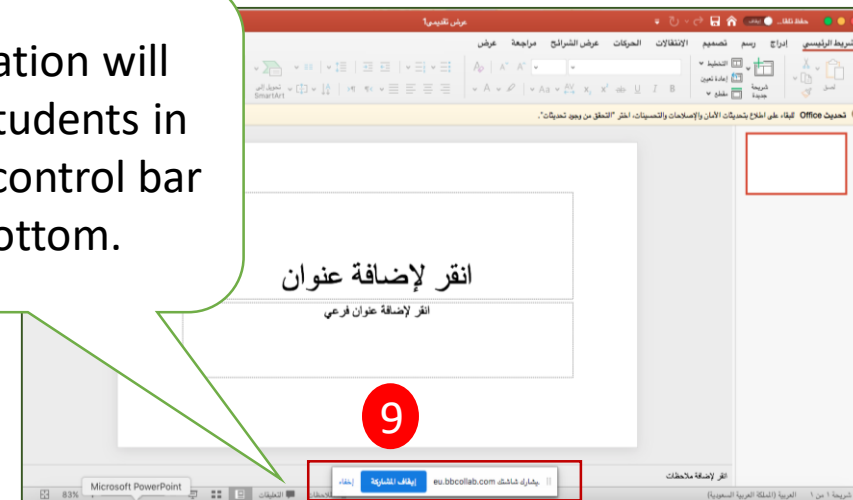

Select desktop or
application screen
then click Share

The screen will appear
in this way (that does
not mean there is a
problem in system) just
select the application
you want to share with
students and
consequently it will
appear to students.

The application will
appear to students in
the sharing control bar
at the bottom.
