Introduction

Turnitin is an electronic similarity detection service that utilizes **data mining** technologies to build, index, and maintain a comprehensive database of academic content. It compares submitted manuscripts against

this extensive repository to identify instances of textual similarity or overlap. The system then generates a **Similarity Report** highlighting matching text, enabling users to identify sections that may require revision or paraphrasing to avoid plagiarism.

Objectives of Turnitin

-
- Enhance the quality of academic research.
 - Verify the originality of submitted scholarly content.
 - Detect potential cases of plagiarism and intellectual misconduct.
 - Promote compliance with academic integrity and research ethics.
 - Protect researchers' intellectual property rights.

How Turnitin Works

-
- The submitted document is compared against the Turnitin database to identify matching content.
 - A **Similarity Report** is generated.
 - The Similarity Report enables users to revise and paraphrase matched content, helping them avoid plagiarism and improve the originality of their work.

Eligible Users at King Abdulaziz University

- 1. Faculty Members**
- 2. Graduate Students**

Registration Process for Faculty Members

:Please follow the steps below to request a Turnitin account

1. Log in to the University's Electronic Services Portal.
2. Sign in using the University's Single Sign-On (SSO) credentials.
3. Select Administrative Services.
4. Click Itmam.
5. Submit a new request.
6. Select Deanship Scientific Research (DSR) as the relevant entity.
7. Choose Researcher Services.
8. Select the Turnitin Account Request service.
9. Complete the required information and submit your request

Registration Process for Graduate Students

Please send the following information via your university email account:

1. Full name (in both Arabic and English)
2. University ID number
3. Mobile phone number
4. College (Academic Department)
5. Degree program (Master's / Ph.D.)

Email the required information to:
dsr-turnitin@kau.edu.sa

King Abdulaziz University
Deanship of Scientific Research

**For Graduate Students Wishing
to Create an Account**

Please send the following information

1		Full name in Arabic and English
2		University ID number
3		Mobile number
4		College (and Department)
5		Study level (Master's/PhD)

via your university email to
dsr-turnitin@kau.edu.sa

For more information or inquiries
Please contact the Researcher Services Unit at
the Deanship of Scientific Research, Extension: **41314**

King Abdulaziz University - Deanship of Scientific Research ☎ +966126950162 ✉ dsrw@kau.edu.sa 📧 @dsr_kau

1

Getting Started with Turnitin

After your registration has been completed, you will receive an email from **noreply@turnitin.com** at your university email address inviting you to activate your Turnitin account.

Click Get Started to begin the account activation process.

2

To activate your account, enter:

1. Your university email address.
2. Your last name (family name)

The image shows a Turnitin Account Setup screen. At the top is the Turnitin logo. Below it, the title "Account Setup" is displayed. A message states: "To set up your account, please enter your email address and last name or family name." There are two input fields: "Email Address" with the text "sa@kau.edu.sa" and "Last Name or Family Name" with the text "ALZHRANI". Below the fields, a note says: "You can find this information in your Turnitin welcome email." Another note says: "If you no longer have access to this email, ask your Turnitin instructor to look up your email address. If you are an instructor, please refer to your Turnitin administrator for this information." At the bottom left is a "Next" button. At the bottom right is the copyright notice: "Copyright © 1998 – 2026 Turnitin, LLC. All rights reserved. (Privacy Policy)"

3

To verify your account, the system will send a confirmation email with instructions to complete your account setup and create your password

Create Your Password

Create a password for your account. Your password must:

- have a minimum of 12 characters
- include at least one number
- include upper and lower case letters
- include at least one special character (~!@#\$%^&*()-_+=[]{}|;:'",<>.,?/)

Password

Verify Your User Information

The screenshot shows the Turnitin verification interface. At the top, a dark grey header bar contains the text "Welcome to Turnitin!". Below this, a light grey box contains the following text: "You have been added as an instructor to the account **King Abdulaziz University - Scientific Research**." followed by "Before you can get started, we want to confirm your user information and give you the chance to set up your secret question and answer. Please feel free to change any other information as needed." and "When you are done, click 'next' to continue." The form includes a "Secret question" dropdown menu with the selected option "Where was the first place that you traveled to?", a "Question answer" text field containing "Egypt", a "your first name" text field containing "SARA", and a "your last name" text field containing "ALZHRANI". A yellow "Next" button is located at the bottom of the form.

Welcome to Turnitin!

You have been added as an instructor to the account **King Abdulaziz University - Scientific Research**.

Before you can get started, we want to confirm your user information and give you the chance to set up your secret question and answer. Please feel free to change any other information as needed.

When you are done, click "next" to continue.

Turnitin Dashboard

Using Turnitin

There are two methods for using Turnitin:

1. Quick Submit
2. Class-Based Submission

Method 1: Quick Submit

1. (Quick Submit)

The Quick Submit feature is available only from the **Instructor account page**.

The screenshot shows the Turnitin Instructor interface. At the top, a navigation bar includes the user's name 'Sara ALZHRANI', links for 'User Info', 'Messages (2 new)', 'Instructor' (selected), 'English', 'Community', 'Help', and 'Logout'. The Turnitin logo is on the left, and a red circular icon with a white upward arrow is on the right. Below the navigation bar, there are tabs for 'All Classes' and 'Join Account (TA)'. The main content area has a light blue header with 'NOW VIEWING: HOME'. Below this, a section titled 'About this page' explains that this is the instructor homepage and provides instructions on creating a class and displaying assignments. A large box displays 'King Abdulaziz University - Scientific Research' with a green '+ Add Class' button. Below this box are three tabs: 'All Classes', 'Expired Classes', and 'Active Classes'. A message states: 'All of your classes have expired. To view and update your expired classes, select the "expired classes" tab. You can update and change a class's end date by clicking the class's "edit" icon.' The footer contains copyright information: 'Copyright © 1998 – 2026 Turnitin, LLC. All rights reserved. (Privacy Policy)' and links for 'Helpdesk' and 'Research Resources'.

Enabling Quick Submit

Before using the Quick Submit feature, it must first be enabled:

- 1. Log in to your Turnitin account.
- 2. Click User Info at the top of the page.
- 3. Enable the Quick Submit feature.
- 4. Select Yes.
- 5. Click Submit to save your changes.

ferences. When you are done making changes, confirm your password and click submit.

Turnitin Usage Guide

31

- Clicking the similarity percentage opens a side panel displaying all matching text.
- Matches are displayed in descending order, with the highest similarity matches appearing first.

The screenshot shows the Turnitin Feedback Studio interface. The main document area displays the logo of King Abdulaziz University and the text "WHERE TO GO: AI-Powered Local Experience Recommendation System". The similarity score is 15%. A side panel titled "Match Overview" is open, showing a list of matches in descending order of similarity percentage.

Rank	Source	Similarity
1	arxiv.org Internet Source	1%
2	www.coursehero.com Internet Source	<1%
3	Submitted to Ton Duc ... Student Paper	<1%
4	Submitted to Southam... Student Paper	<1%
5	eprints.utar.edu.my Internet Source	<1%
6	Ramon Lopes, Rodrigo ... Publication	<1%
7	hdl.handle.net Internet Source	<1%

Method 2: Using a Course

By creating a course, students can check the originality of their papers or research manuscripts.

Step 1

Click the **"Add Class"** icon to create a new course.

Step 2

To create a course, you will be prompted to complete the required information.

After completing the required information, click **Submit**

turnitin

All Classes Join Account (TA) Quick Submit

NOW VIEWING: [HOME](#) > CREATE CLASS

Create a new class

To create a class, enter a class name and a class enrollment key. Click "Submit" to add the class to your homepage.

Class settings

* Indicates a required field

* Class type Standard

* Class name Research Proposal

* Enrollment key 123456

* Subject area(s) Computer Science/Programming

* Student level(s) Graduate

Class start date 08-Jul-2026

* Class end date 31-Jul-2027

Cancel Submit

Step 3: The class has been successfully created.

Upon successful creation of the class, a confirmation message will be displayed containing the following information:

- **Class ID:** A unique identifier assigned to the newly created class.
- **Enrollment Key:** The enrollment key that students must enter to join the class.

Step 4: Click **Continue** to proceed.

Step 5: Click on the **course name** of the newly created class.

Step 6
To add an assignment to the class, click the **"Add Assignment"** button on the right-hand side of the screen

Step 7

Complete the assignment details, including:

- Assignment Title
- Instructions
- Start Date
- Due Date
- Post Date

Once completed, students will be able to view the assignment and submit their work.

The screenshot displays the 'Assignment Details' form in the Turnitin interface. The form is divided into two main sections: the main content area on the left and a settings sidebar on the right.

Main Content Area:

- Title (required):** A text input field containing 'Summarizing a scientific paper'.
- Instructions:** A rich text editor with a toolbar (Bold, Italic, Underline, Bulleted List, Numbered List, Link, Unlink, Embed, Help) and a large text area. The bottom status bar shows '0 words'.
- Template:** A section with an 'Upload File' button.

Settings Sidebar (Right):

- Scheduling:**
 - Start date (required):** A date picker set to 14/07/2025.
 - Due date (required):** A date picker set to 14/07/2025.
 - Feedback release date (required):** A date picker set to 14/07/2025.
- Grading and feedback:**
 - Max points:** A dropdown menu set to '100'.
 - ☐ Hide student details for anonymous grading
 - [+ Attach Rubric](#)
- Submission settings:**
 - ☐ Allow late submissions
 - ☒ Allow resubmissions until due date
 - ☐ Allow submission of any file type

Footer: 'Cancel' and 'Create Assignment' buttons are at the bottom right. The footer text reads: 'Copyright © 1999-2020 Turnitin, LLC. All Rights Reserved. (Privacy Policy) Helpdesk'.

Important Note:

To prevent submitted papers from being stored in the Turnitin repository, ensure **that No Repository** is selected in the repository settings before creating the assignment.

The screenshot shows the 'Report Settings' tab in the Turnitin interface. At the top, a blue banner states: 'These settings can be edited after creating your assignment' with a 'Learn more' link. The settings are organized into several sections:

- Store submissions for comparison:** Includes a red circle with a white arrow pointing to the 'Do not store the submitted papers' option. The text below reads: 'Select whether to store submissions so they can be used for similarity checking.'
- Compare submissions:** Includes checkboxes for 'General Turnitin repository', 'Internet content', and 'Periodicals, journals and publications'. The text below reads: 'At least one source must be selected for comparison.'
- Generate report:** Includes radio buttons for 'At time of submission' (selected) and 'On due date'.
- Report access:** Includes a checkbox for 'Allow students to view Similarity Reports'.
- Exclusions:** Includes checkboxes for 'Exclude bibliographic materials', 'Exclude quoted materials', and 'Exclude matches smaller than' (with a text input field set to 8) words. A note below reads: 'You may only exclude small matches between 8 and 250 words.'

At the bottom right, there are 'Cancel' and 'Create Assignment' buttons. The footer contains copyright information: 'Copyright © 1998-2020 Turnitin, LLC. All Rights Reserved. (Privacy Policy) Helpdesk'.

The task has been added successfully added.

Step 8: Adding Students to the Class

Students can be added using one of the following methods:

- Add an Individual Student
- Import Students from a Student List
- Send an automatic email invitation containing the class enrollment link to students.

To add an **individual student**, enter the following information:

- **First Name**
- **Last Name**
- **Email Address (Username)**

Then click **Submit** to enroll the student in the class.

A screenshot of the 'Enroll a Student' form. The form has a title 'Enroll a Student' and a description: 'To enroll a student, enter a first name, last name, and an email address and click submit. If the student already has a Turnitin user profile, they will be notified and enrolled in your class immediately. If they do not have a profile, we will create one and send them an email notification with a temporary password.' There are three required fields: 'First name' (containing 'SARA'), 'Last name' (containing 'ALZHRANI'), and 'Email (User name)' (containing 'sa@kau.edu.sa'). A 'Submit' button is at the bottom.

An email notification will be sent automatically to the student's university email address after the instructor enrolls the student in the class.

The student's name appears on the teacher's page

Select Request Permanent Deletion.4. Choose the reason for deletion.5. Click Confirm.	Yes, the instructor can delete the paper by following these steps:1. Open the class.2. Click Actions > View.3. Select Remove from Inbox.4. Click Confirm.
Deletion Restrictions	Approval from the University's Turnitin Administrator is required before the paper can be permanently deleted.	No approval is required. The instructor can delete the paper directly.

Does Turnitin Detect AI-Generated Writing?

Turnitin's **AI Writing Detection** technology is designed to distinguish between content generated by artificial intelligence tools and content written by a human author, providing a high level of accuracy and confidence in its analysis.

- AI Writing Detection currently supports only content written in English.
- Only instructors and administrators can view the AI Writing Indicator.
- The Similarity Report percentage is independent of the AI Writing Detection score; the two metrics are reported separately.

To check the AI indicator, follow these steps:

Step 1: Sign in to Turnitin with your instructor account.

Step 2

Click the "Add Class" icon to create a new course.

Step 3

To create a course, you will be prompted to complete the required information.
After completing the required information, click **Submit**

Step 4: The class has been successfully created.

Upon successful creation of the class, a confirmation message will be displayed containing the following information:

- **Class ID:** A unique identifier assigned to the newly created class.
- **Enrollment Key:** The enrollment key that students must enter to join the class.

Step 5: Click **Continue** to proceed.

Step 6: Click on the **course name** of the newly created class.

Step 7
To add an assignment to the class, click the **"Add Assignment"** button on the right-hand side of the screen

Step 8

Complete the assignment details, including:

- Assignment Title
- Instructions
- Start Date
- Due Date
- Post Date

The screenshot displays the 'Assignment Details' tab in the Turnitin interface. The main content area includes a 'Title (required)' field with the text 'Summarizing a scientific paper', an 'Instructions' text editor with a rich text toolbar, and a 'Template' section with an 'Upload File' button. The right sidebar contains three sections: 'Scheduling' with fields for 'Start date (required)', 'Due date (required)', and 'Feedback release date (required)', all showing dates in the Hijri calendar; 'Grading and feedback' with a 'Max points' field set to 100, a checkbox for 'Hide student details for anonymous grading', and a '+ Attach Rubric' link; and 'Submission settings' with checkboxes for 'Allow late submissions', 'Allow resubmissions until due date' (which is checked), and 'Allow submission of any file type'. At the bottom right are 'Cancel' and 'Create Assignment' buttons. The footer shows copyright information for Turnitin, LLC.

Important Note:

To prevent submitted papers from being stored in the Turnitin repository, ensure that No Repository is selected in the repository settings before creating the assignment.

Step 9

The task has been added successfully added.

AI Writing

Our AI writing assessment is designed to help educators identify text that might be prepared by a generative AI tool. Our AI writing assessment may not always be accurate (i.e., our AI models may produce either false positive results or false negative results), so it should not be used as the sole basis for adverse actions against a student. It takes further scrutiny and human judgment in conjunction with an organization's application of its specific academic policies to determine whether any academic misconduct has occurred.

DeclineAccept

After opening the report, the detection rate for AI-generated text is displayed.

going to implement each objective:

1.10.1 Objective 1: Develop and Implement Advanced Natural Language Processing Techniques for Arabic Data

To enhance the accuracy and depth of data understanding in Arabic, we will undertake the following steps:

• **Data Collection:** We will gather data from various social media platforms (e.g., X, Facebook, Instagram) where users discuss local entertainment options. This data will be scraped using APIs, ensuring compliance with each platform's data usage policies.

• **Preprocessing:** The collected text data will undergo preprocessing steps, including tokenization, normalization, and stemming specific to the Arabic language. We will also implement techniques to handle dialectal variations and slang.

77% detected as AI

The percentage indicates the combined amount of likely AI-generated text as well as likely AI-generated text that was also likely AI-paraphrased.

Submission Breakdown

page 1page 83

169 AI-generated only 77%

Likely AI-generated text from a large-language model.

1 AI-generated text that was AI-paraphrased 0%

Likely AI-generated text that was likely revised using an AI-paraphrase tool or word spinner.
