## Introduction

Turnitin is an electronic similarity detection service that utilizes **data mining** technologies to build, index, and maintain a comprehensive database of academic content. It compares submitted manuscripts against this extensive repository to identify instances of textual similarity or overlap. The system then generates a **Similarity Report** highlighting matching text, enabling users to identify sections that may require revision or paraphrasing to avoid plagiarism.

## **Objectives of Turnitin**

- Enhance the quality of academic research.
- Verify the originality of submitted scholarly content.
- Detect potential cases of plagiarism and intellectual misconduct.
- Promote compliance with academic integrity and research ethics.
- Protect researchers' intellectual property rights.

## How Turnitin Works

- The submitted document is compared against the Turnitin database to identify matching content.
- A **Similarity Report** is generated.
- The Similarity Report enables users to revise and paraphrase matched content, helping them avoid plagiarism and improve the originality of their work.

# **Eligible Users at King Abdulaziz University**

- 1. Faculty Members**
- 2. Graduate Students**

# Registration Process for Faculty Members

Please follow the steps below to request a Turnitin account:

1. Log in to the University's Electronic Services Portal.
2. Sign in using the University's Single Sign-On (SSO) credentials.
3. Select Administrative Services.
4. Click Itmam.
5. Submit a new request.
6. Select Deanship Scientific Research (DSR) as the relevant entity.
7. Choose Researcher Services.
8. Select the Turnitin Account Request service.
9. Complete the required information and submit your request

# Registration Process for Graduate Students

Please send the following information via your university email account:

1. Full name (in both Arabic and English)
2. University ID number
3. Mobile phone number
4. College (Academic Department)
5. Degree program (Master's / Ph.D.)

Email the required information to:  
**dsr-turnitin@kau.edu.sa**

**King Abdulaziz University**  
Deanship of Scientific Research

**For Graduate Students Wishing  
to Create an Account**

Please send the following information

## Getting Started with Turnitin

After your registration has been completed, you will receive an email from **noreply@turnitin.com** at your university email address inviting you to activate your Turnitin account.

Click Get Started to begin the account activation process.

**2**

**To activate your account, enter:**

1. Your university email address.
2. Your last name (family name)

The image shows a screenshot of the Turnitin Account Setup page. At the top, the Turnitin logo is displayed. Below it, the heading "Account Setup" is shown. The page instructs the user to enter their email address and last name or family name. Two input fields are provided: the first contains "sa@kau.edu.sa" and the second contains "ALZHRANI". Below the input fields, there is a "Next" button. At the bottom of the page, a copyright notice is visible: "Copyright © 1998 – 2026 Turnitin, LLC. All rights reserved. (Privacy Policy)".

- Clicking the similarity percentage opens a side panel displaying all matching text.
- Matches are displayed in descending order, with the highest similarity matches appearing first.

The screenshot shows the Turnitin Feedback Studio interface. The main document area displays the logo of King Abdulaziz University and the text "WHERE TO GO: AI-Powered Local Experience Recommendation System". The similarity score is 15%. A side panel titled "Match Overview" is open, showing a list of matches in descending order of similarity percentage.

| 7    | hdl.handle.net<br>Internet Source         | <1%        |

## Method 2: Using a Course

By creating a course, students can check the originality of their papers or research manuscripts.

## Step 1

Click the **"Add Class"** icon to create a new course.

## Step 2

To create a course, you will be prompted to complete the required information.

After completing the required information, click **Submit**

The screenshot shows the Turnitin 'Create a new class' form. At the top, there's a navigation bar with 'All Classes', 'Join Account (TA)', and 'Quick Submit' buttons. Below this, a breadcrumb trail reads 'NOW VIEWING: HOME > CREATE CLASS'. A dark banner says 'Create a new class'. A message states: 'To create a class, enter a class name and a class enrollment key. Click "Submit" to add the class to your homepage.' The form is titled 'Class settings' and includes a legend: '\* Indicates a required field'. The form fields are: '\* Class type' (dropdown menu set to 'Standard'), '\* Class name' (text input with 'Research Proposal'), '\* Enrollment key' (text input with '123456'), '\* Subject area(s)' (dropdown menu with 'Computer Science/Programming'), '\* Student level(s)' (dropdown menu with 'Graduate'), 'Class start date' (text input with '08-Jul-2026'), and '\* Class end date' (text input with '31-Jul-2027' and a calendar icon). At the bottom, there are 'Cancel' and 'Submit' buttons. A red circle with a white left-pointing arrow is overlaid on the 'Submit' button.

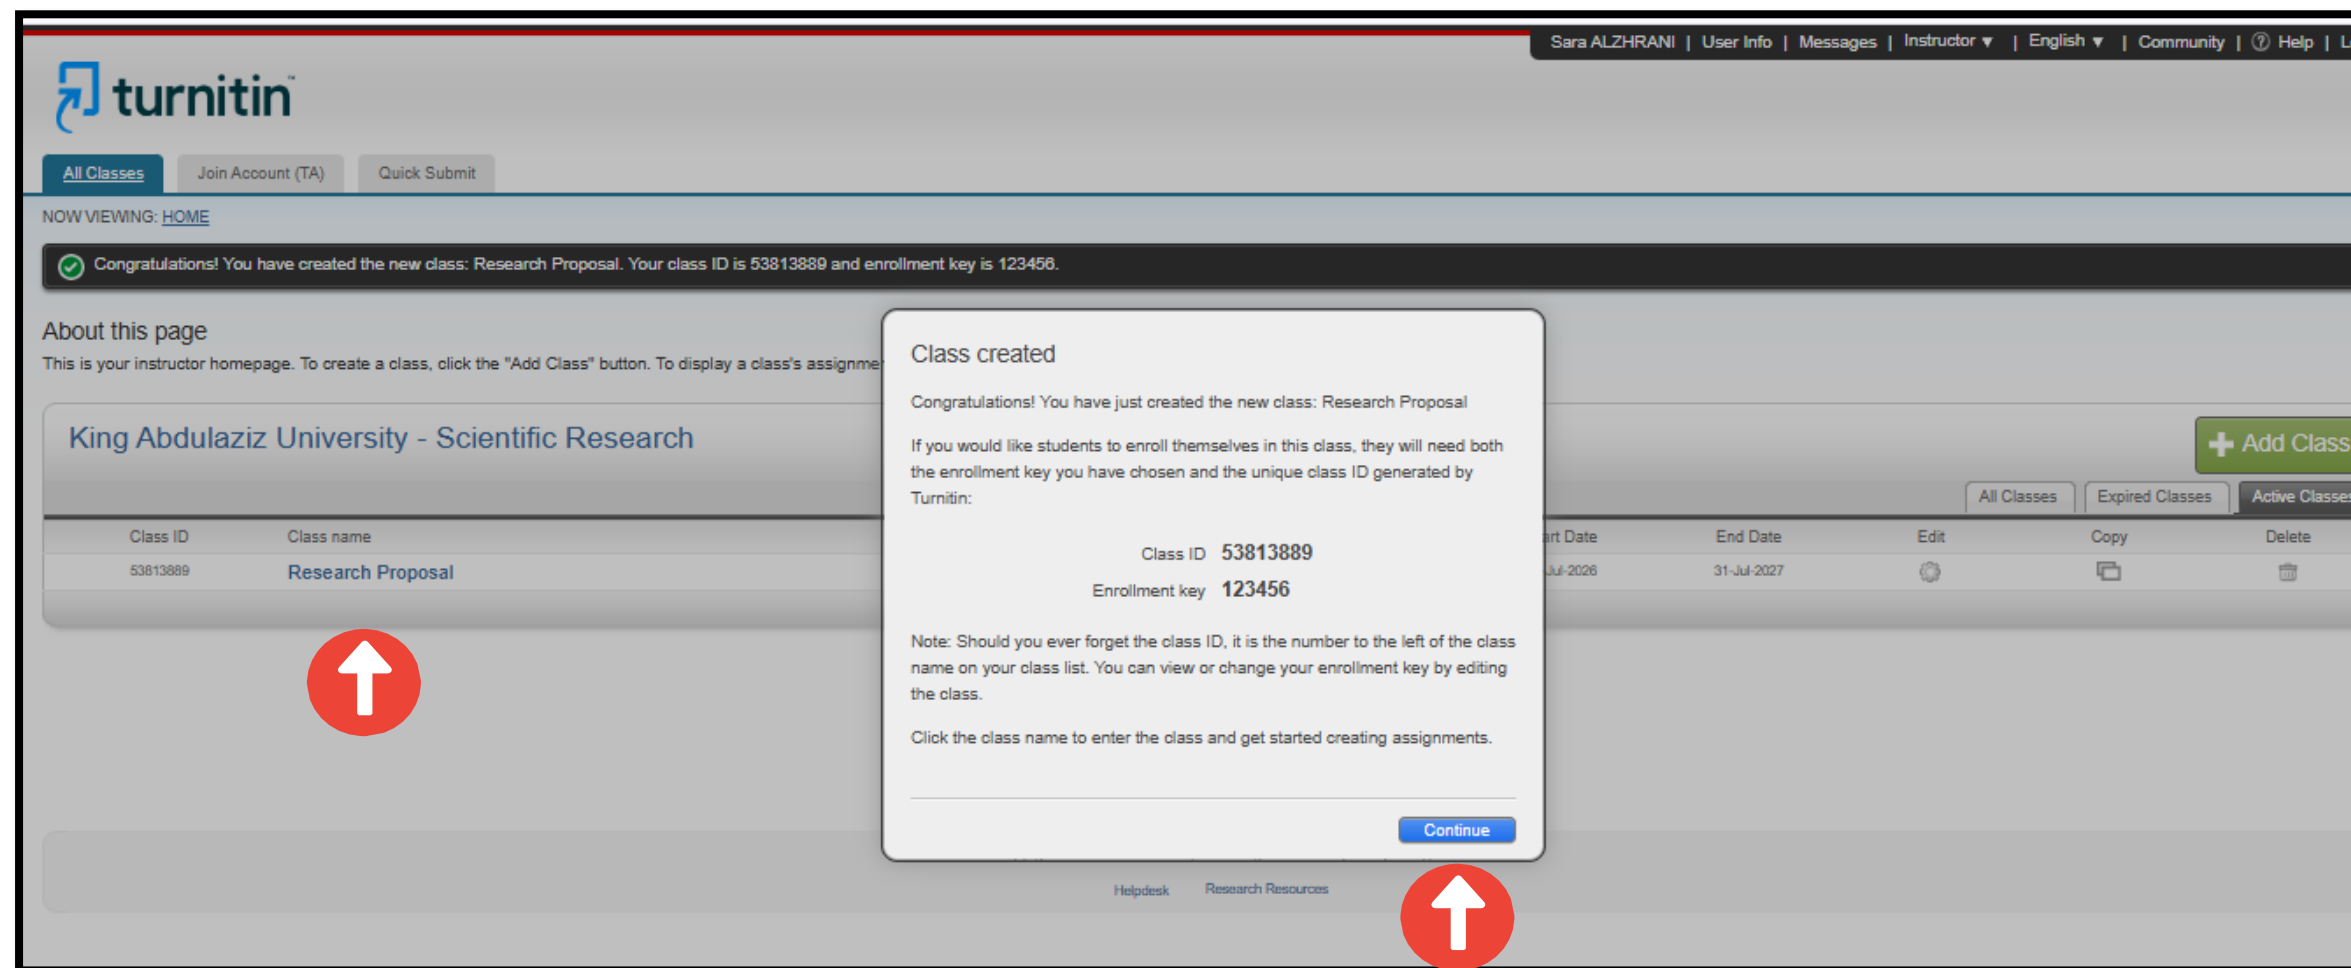

### Step 3: The class has been successfully created.

Upon successful creation of the class, a confirmation message will be displayed containing the following information:

- . **Class ID:** A unique identifier assigned to the newly created class.
- . **Enrollment Key:** The enrollment key that students must enter to join the class.

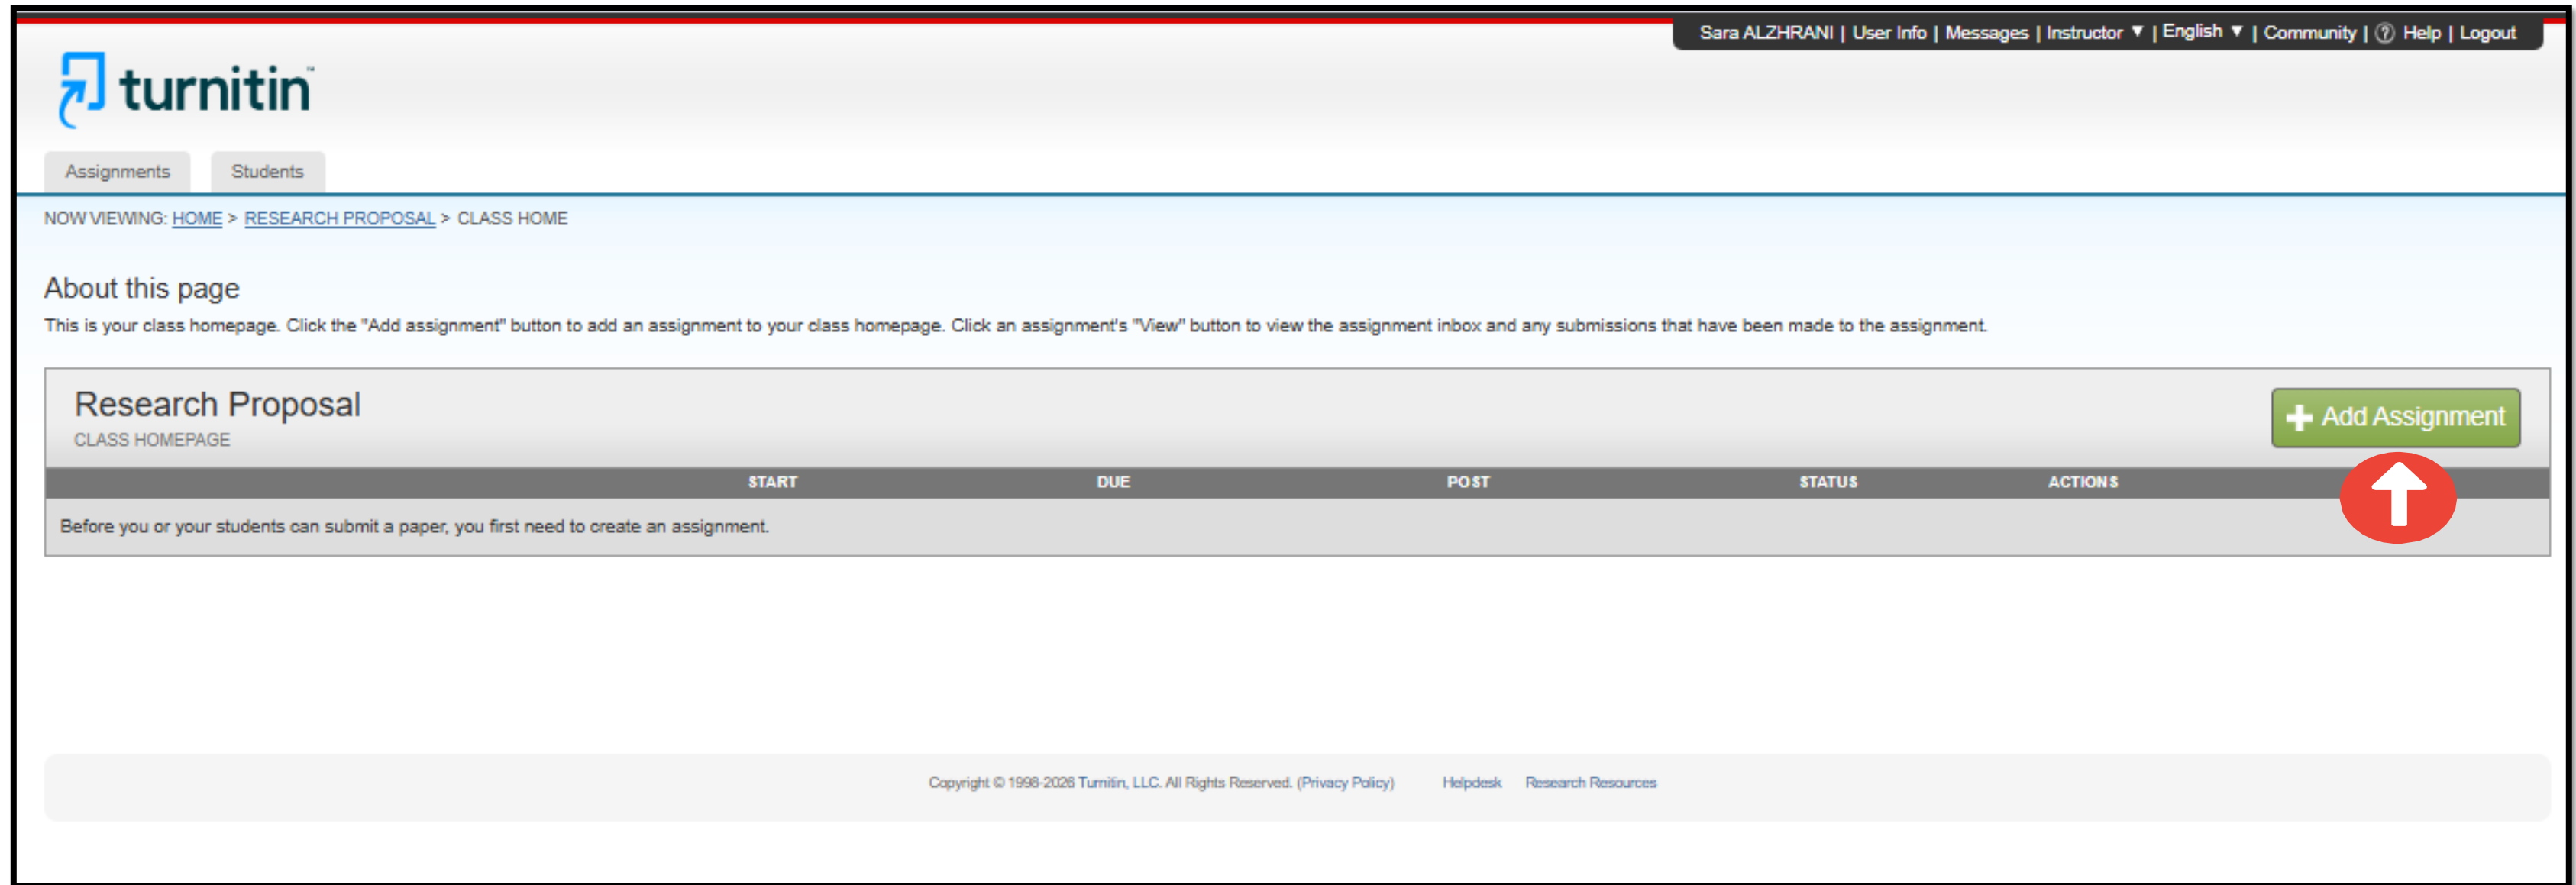

Step 4: Click **Continue** to proceed.

Step 5: Click on the **course name** of the newly created class.

## Step 6

To add an assignment to the class, click the "**Add Assignment**" button on the right-hand side of the screen

The screenshot displays the Turnitin interface for a class homepage. At the top, the Turnitin logo is on the left, and a user menu on the right shows 'Sara ALZHRANI' with links for 'User Info', 'Messages', 'Instructor', 'English', 'Community', 'Help', and 'Logout'. Below the logo, there are tabs for 'Assignments' and 'Students'. The main content area has a breadcrumb trail: 'NOW VIEWING: HOME > RESEARCH PROPOSAL > CLASS HOME'. Underneath, a section titled 'About this page' explains that this is the class homepage and provides instructions on using the 'Add assignment' and 'View' buttons. A large box titled 'Research Proposal' with the subtitle 'CLASS HOMEPAGE' contains a table with columns: 'START', 'DUE', 'POST', 'STATUS', and 'ACTIONS'. A message at the bottom of this box states: 'Before you or your students can submit a paper, you first need to create an assignment.' To the right of the table, a green button labeled '+ Add Assignment' is visible. A red circle with a white upward-pointing arrow is overlaid on the 'ACTIONS' column header, pointing directly at the '+ Add Assignment' button. The footer of the page includes copyright information: 'Copyright © 1998-2026 Turnitin, LLC. All Rights Reserved. (Privacy Policy)' and links to 'Helpdesk' and 'Research Resources'.

## Step 7

Complete the assignment details, including:

- Assignment Title
- Instructions
- Start Date
- Due Date
- Post Date

Once completed, students will be able to view the assignment and submit their work.

The screenshot displays the 'Assignment Details' form in the Turnitin interface. The form is divided into several sections:

- Title (required):** A text input field containing 'Summarizing a scientific paper'.
- Instructions:** A large text area with a rich text editor toolbar (bold, italic, underline, list, link, etc.) and a word count of '0 words'.
- Template:** A section with an 'Upload File' button.
- Scheduling:** A section with three date pickers: 'Start date (required)', 'Due date (required)', and 'Feedback release date (required)', all set to 14/07/2023.
- Grading and feedback:** A section with a 'Max points' input field set to '1..', a checkbox for 'Hide student details for anonymous grading', and a link to '+ Attach Rubric'.
- Submission settings:** A section with three checkboxes: 'Allow late submissions' (unchecked), 'Allow resubmissions until due date' (checked), and 'Allow submission of any file type' (unchecked).

At the bottom right, there are 'Cancel' and 'Create Assignment' buttons. The footer contains copyright information: 'Copyright © 1998-2020 Turnitin, LLC. All Rights Reserved. (Privacy Policy) Helpdesk'.

## Important Note:

To prevent submitted papers from being stored in the Turnitin repository, ensure that No Repository is selected in the repository settings before creating the assignment.

The screenshot displays the 'Report Settings' tab in the Turnitin interface. A red circle with a white arrow points to the 'Do not store the submitted papers' radio button under the 'Store submissions for comparison' section. The 'Compare submissions' section has three checked options: 'General Turnitin repository', 'Internet content', and 'Periodicals, journals and publications'. The 'Generate report' section has 'At time of submission' selected. The 'Report access' section has 'Allow students to view Similarity Reports' checked. The 'Exclusions' section has three unchecked options: 'Exclude bibliographic materials', 'Exclude quoted materials', and 'Exclude matches smaller than' (with a text input field set to 'A' words). At the bottom right, there are 'Cancel' and 'Create Assignment' buttons. The footer contains copyright information: 'Copyright © 1999-2020 Turnitin, LLC. All Rights Reserved. (Privacy Policy) Helpdesk'.

The task has been added successfully added.

## Step 8: Adding Students to the Class

Students can be added using one of the following methods:

- Add an Individual Student
- Import Students from a Student List
- Send an automatic email invitation containing the class enrollment link to students.

To add an **individual student**, enter the following information:

- **First Name**
- **Last Name**
- **Email Address (Username)**

Then click **Submit** to enroll the student in the class.

A screenshot of the "Enroll a Student" form. The form has a title "Enroll a Student" and a description: "To enroll a student, enter a first name, last name, and an email address and click submit. If the student already has a Turnitin user profile, they will be notified and enrolled in your class immediately. If they do not have a profile, we will create one and send them an email notification with a temporary password." There is a note: "\* Indicates a required field". Below this, it says "Add student to" and "Class name: King Abdulaziz University - Scientific Research, Research Proposal". The form has three input fields: "First name" with the value "SARA", "Last name" with the value "ALZHRANI", and "Email (User name)" with the value "sa@kau.edu.sa". There is a "Submit" button at the bottom.

An email notification will be sent automatically to the student's university email address after the instructor enrolls the student in the class.

The student's name appears on the teacher's page

  - Submission settings:
    - Late submissions are not allowed
    - Resubmissions are allowed
- File Requirements (from modal):**
  - Must be under 100 MB
  - Must be under 800 pages
  - Must contain at least 20 words to generate a Similarity Report
  - Must be one of the following file types: .docx, .xlsx, .pptx, .ps, .pdf, .html, .rtf, .odt, .hwp, .txt

**After selecting the upload file and reviewing the submission details, the file is sent.**

## Student Dashboard

### B. Student Self-Enrollment: To enroll in a class:

1. Enter the Class ID and Enrollment Key provided by the instructor.
2. Click Submit to complete the enrollment process.

The screenshot displays the Turnitin Student Dashboard. At the top, the Turnitin logo is visible on the left, and a user navigation bar on the right shows 'Sara ALZHRANI | User Info | Messages | Student | English | Help | Logout'. Below the logo, there are four tabs: 'All Classes', 'Enroll in a Class', 'What is Plagiarism?', and 'Citation Help'. The 'Enroll in a Class' tab is selected.

The main content area of the dashboard includes a 'NOW VIEWING: HOME' indicator, a section titled 'About this page' with instructions on how to enroll, and a 'Welcome!' message. At the bottom of the main area, there is a yellow button with a green plus icon and the text 'enroll in a class'. A red circle with a white upward arrow points to this button.

An inset window shows the 'Enroll in a class' form. It has the same navigation tabs at the top. The form contains two input fields: 'Class/section ID' with the value '53813889' and 'Enrollment key' with the value '123456'. A 'Submit' button is located at the bottom of the form.

After clicking on the course name, the assignment page will open.

Turnitin Usage Guide

50

- Matching sources are displayed in descending order, with the highest similarity matches listed first.

The screenshot displays the Turnitin interface for a user named Sara ALZHRANI, CPCS498. The interface shows a 22% overall similarity score and a 77% AI Writing score. The main content area is mostly blank, with a large watermark of King Abdulaziz University in the center. The right sidebar shows the '22% Overall Similarity' section with a 'Filters' button. Below this, there are two tabs: 'Match Groups' and 'Sources'. The 'Match Groups' tab is active, showing a list of match groups with their respective counts and percentages:

| Match Group         | Count | Percentage |
|---------------------|-------|------------|
| Not Cited or Quoted | 392   | 20%        |
| Missing Quotations  | 42    | 2%         |
| Missing Citation    | 0     | 0%         |
| Cited and Quoted    | 0     | 0%         |

Below the match groups, there is a section titled 'Not Cited or Quoted' with a sub-header '392 matches from 261 sources'. This section shows a list of sources, with the first one being 'Student papers'.

At the bottom of the interface, there is a footer bar showing 'Page 1 of 83', '21777 words', and a zoom level of '153%'.

## 1. Source Identification

Click the **numbered source indicator** within the document to view detailed information about the matching text and its corresponding source.

## 2. Source Box

After clicking the **numbered source indicator**, the **Source Box** opens, displaying the matched text together with its corresponding source.

The screenshot displays the Turnitin interface for a document titled "Sara ALZHRANI" (CPCS498). The document is 19 pages long, and the current page is 19 of 83. The document text is highlighted in orange, indicating a match. The Source Box on the right shows the source as "Internet" (arxiv.org) with a similarity of <1%. The Source Box also displays the matched text and a link to the full source text. The Source Box is titled "3 Internet" and shows "5 text blocks" and "95 matched words". The Source Box also displays the matched text and a link to the full source text. The Source Box is titled "3 Internet" and shows "5 text blocks" and "95 matched words". The Source Box also displays the matched text and a link to the full source text. The Source Box is titled "3 Internet" and shows "5 text blocks" and "95 matched words".

## Methods for Deleting Submitted Papers

1. Deleting Papers from a Class
2. Deleting Papers from Quick Submit

# 1. Delete papers via Quick Submit

## Does Turnitin Detect AI-Generated Writing?

Turnitin's **AI Writing Detection** technology is designed to distinguish between content generated by artificial intelligence tools and content written by a human author, providing a high level of accuracy and confidence in its analysis.

- AI Writing Detection currently supports only content written in English.
- Only instructors and administrators can view the AI Writing Indicator.
- The Similarity Report percentage is independent of the AI Writing Detection score; the two metrics are reported separately.

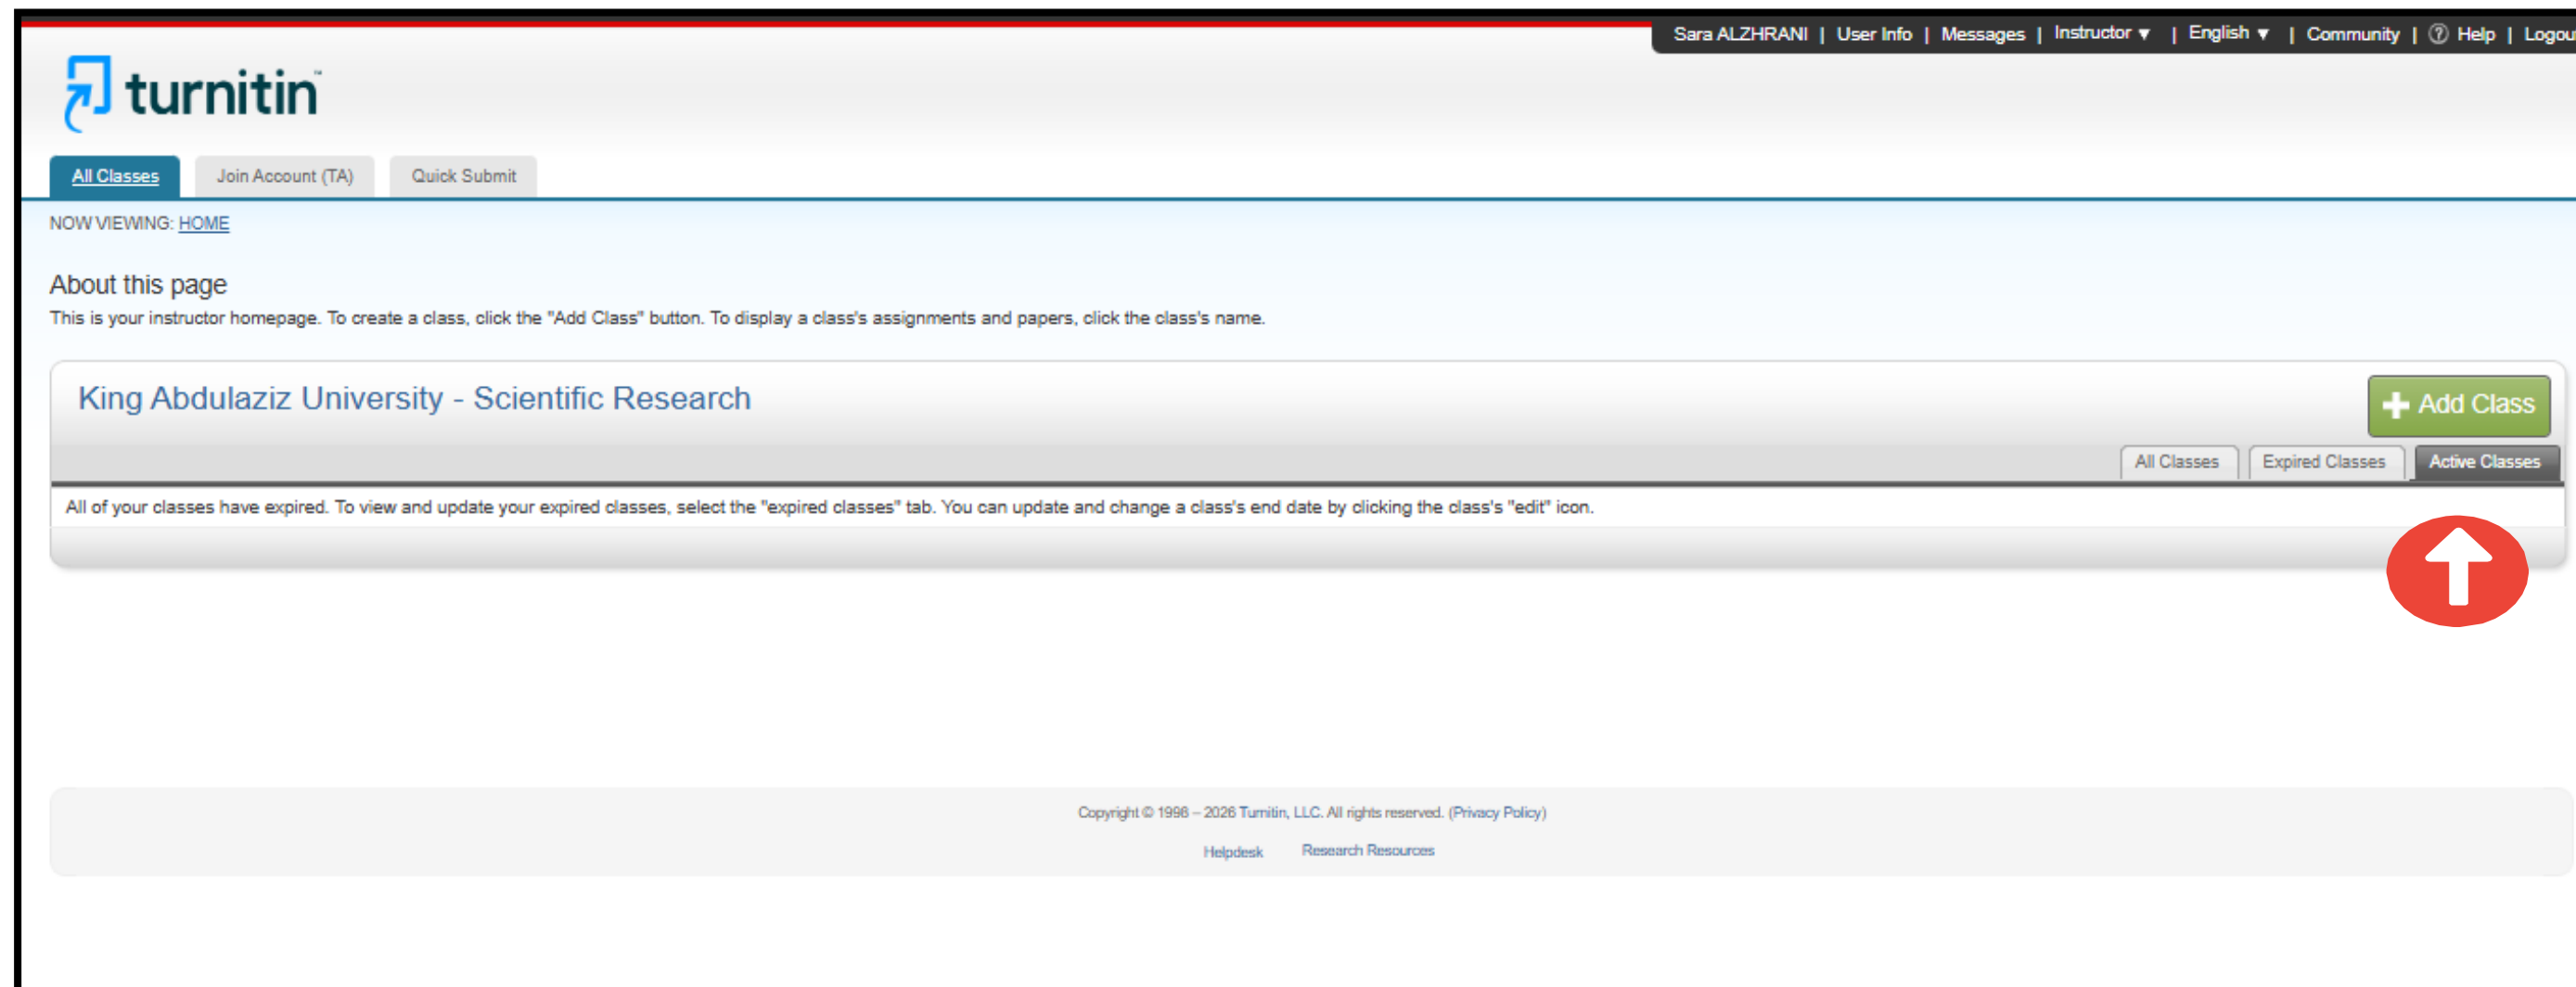

# To check the AI indicator, follow these steps:

**Step 1: Sign in to Turnitin with your instructor account.**

## Step 2

Click the **"Add Class"** icon to create a new course.

## Step 3

To create a course, you will be prompted to complete the required information.

After completing the required information, click **Submit**

The screenshot shows the Turnitin 'Create a new class' form. At the top, there's a navigation bar with 'All Classes', 'Join Account (TA)', and 'Quick Submit' buttons. Below this, a breadcrumb trail reads 'NOW VIEWING: HOME > CREATE CLASS'. A dark banner says 'Create a new class'. A message states: 'To create a class, enter a class name and a class enrollment key. Click "Submit" to add the class to your homepage.' The main form area is titled 'Class settings' and includes a legend: '\* Indicates a required field'. The form fields are: '\* Class type' (dropdown menu set to 'Standard'), '\* Class name' (text input with 'Research Proposal'), '\* Enrollment key' (text input with '123456'), '\* Subject area(s)' (dropdown menu with 'Computer Science/Programming'), '\* Student level(s)' (dropdown menu with 'Graduate'), 'Class start date' (text input with '08-Jul-2026'), and '\* Class end date' (text input with '31-Jul-2027' and a calendar icon). At the bottom, there are 'Cancel' and 'Submit' buttons. A red circle with a white left-pointing arrow is overlaid on the 'Submit' button.

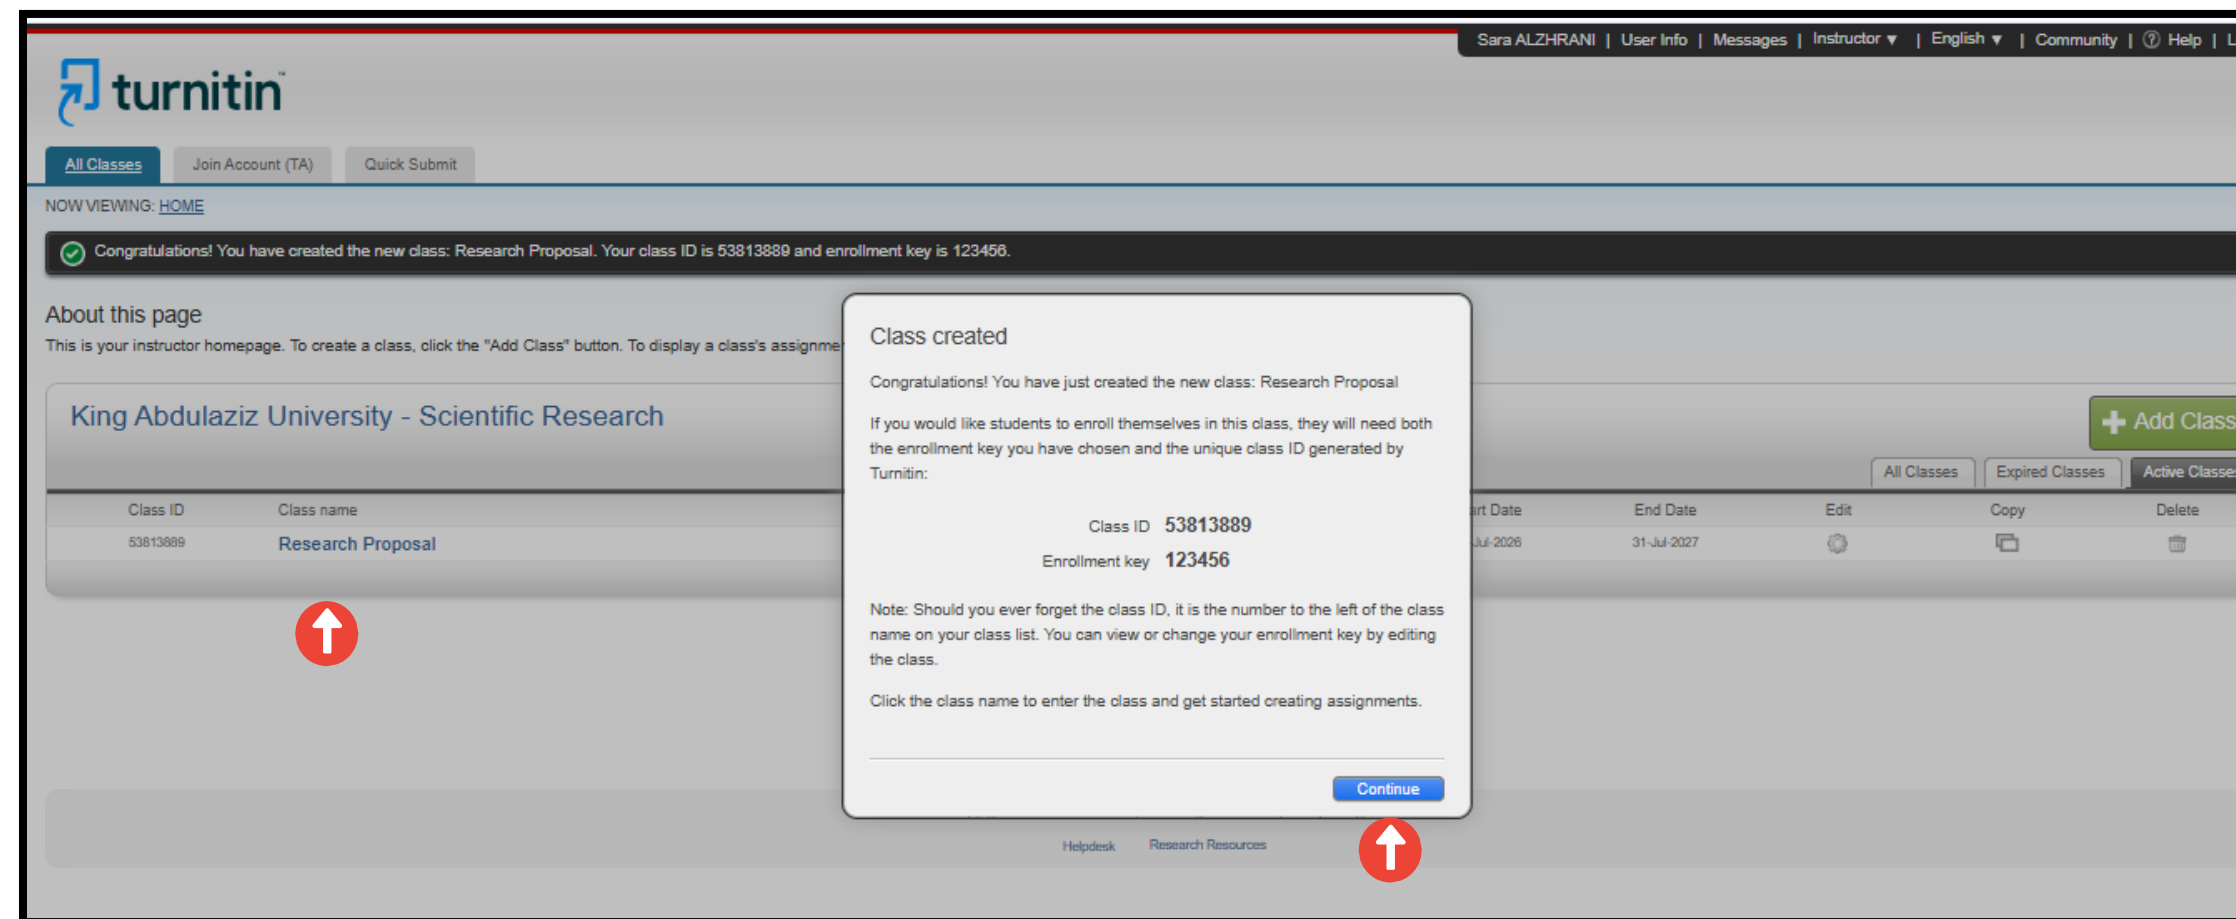

Step 4: The class has been successfully created.

Upon successful creation of the class, a confirmation message will be displayed containing the following information:

- . **Class ID:** A unique identifier assigned to the newly created class.
- . **Enrollment Key:** The enrollment key that students must enter to join the class.

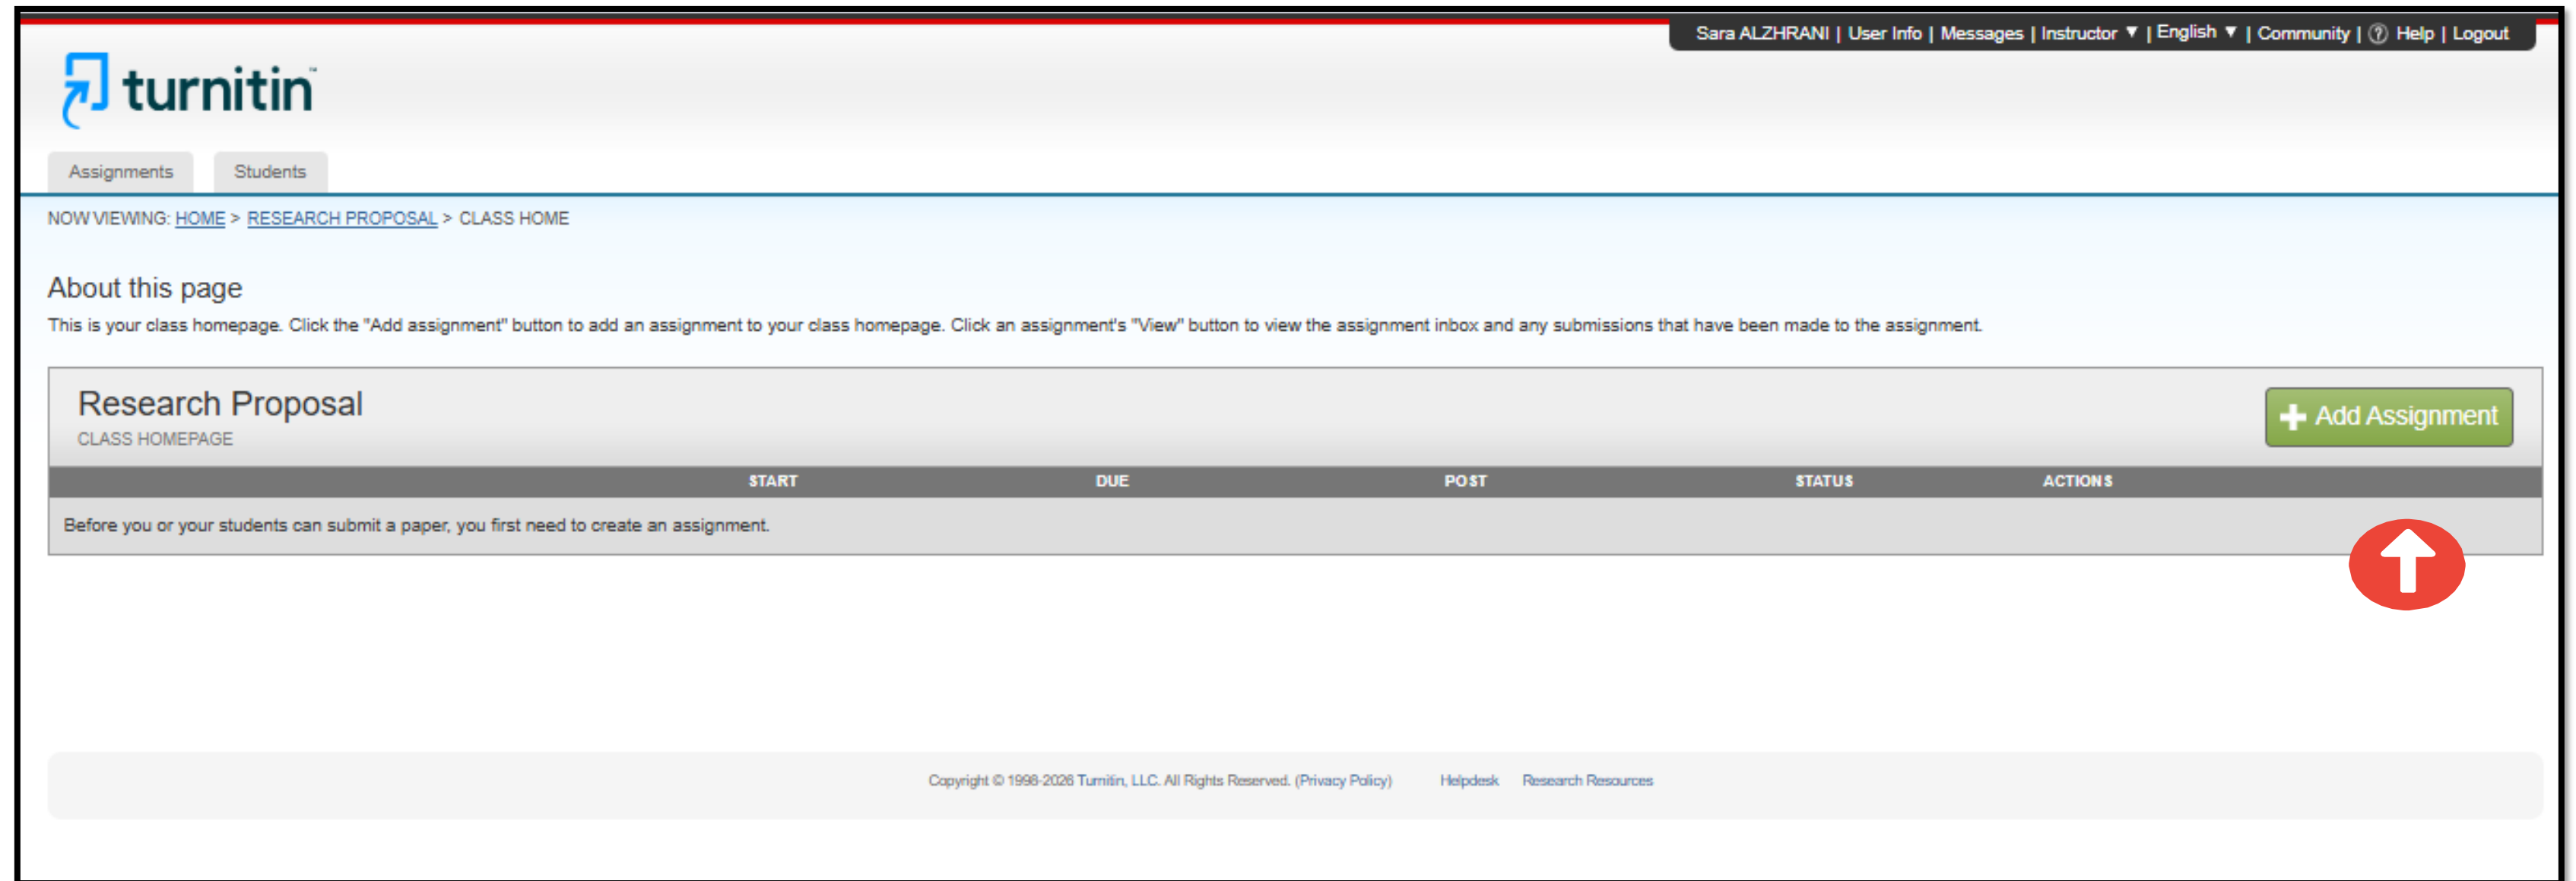

Step 5: Click **Continue** to proceed.

Step 6: Click on the **course name** of the newly created class.

## Step 7

To add an assignment to the class, click the "**Add Assignment**" button on the right-hand side of the screen

The screenshot displays the Turnitin interface for a class homepage. At the top, the Turnitin logo is on the left, and a user menu on the right shows 'Sara ALZHRANI' with links for 'User Info', 'Messages', 'Instructor', 'English', 'Community', 'Help', and 'Logout'. Below the logo, there are tabs for 'Assignments' and 'Students'. A breadcrumb trail indicates 'NOW VIEWING: HOME > RESEARCH PROPOSAL > CLASS HOME'. The main heading is 'About this page', followed by a descriptive paragraph. A section titled 'Research Proposal' with the subtitle 'CLASS HOMEPAGE' contains a green '+ Add Assignment' button. Below this is a table with headers: START, DUE, POST, STATUS, and ACTIONS. A message states: 'Before you or your students can submit a paper, you first need to create an assignment.' A red circle with a white upward arrow points to the '+ Add Assignment' button. The footer includes copyright information and links to 'Helpdesk' and 'Research Resources'.

## Step 8

### Complete the assignment details, including:

- Assignment Title
- Instructions
- Start Date
- Due Date
- Post Date

The screenshot displays the Turnitin assignment creation interface, specifically the 'Assignment Details' tab. The interface is divided into two main sections: a left sidebar for assignment details and a right sidebar for scheduling and settings.

**Assignment Details (Left Sidebar):**

- Title (required):** A text input field containing 'Summarizing a scientific paper'.
- Instructions:** A rich text editor with a toolbar (Bold, Italic, Underline, Bulleted List, Numbered List, Link, Unlink, Embed, Help) and a large text area. The bottom status bar shows '0 words' and a hint 'Press Alt + Q for help'.
- Template:** A section with an 'Upload File' button.

**Scheduling (Right Sidebar):**

- Start date (required):** A date picker showing '14/07/2020'.
- Due date (required):** A date picker showing '14/07/2020'.
- Feedback release date (required):** A date picker showing '14/07/2020'.

**Grading and feedback (Right Sidebar):**

- Max points:** A text input field with '1'.
- ☐ Hide student details for anonymous grading
- [+ Attach Rubric](#)

**Submission settings (Right Sidebar):**

- ☐ Allow late submissions
- ☒ Allow resubmissions until due date
- ☐ Allow submission of any file type

**Bottom Bar:**

- [Cancel](#) button

## Important Note:

To prevent submitted papers from being stored in the Turnitin repository, ensure that No Repository is selected in the repository settings before creating the assignment.

The screenshot displays the 'Report Settings' tab in the Turnitin interface. A red circle with a white arrow points to the 'Do not store the submitted papers' radio button under the 'Store submissions for comparison' section. The 'Compare submissions' section has three checked options: 'General Turnitin repository', 'Internet content', and 'Periodicals, journals and publications'. The 'Generate report' section has 'At time of submission' selected. The 'Report access' section has 'Allow students to view Similarity Reports' checked. The 'Exclusions' section has three unchecked options: 'Exclude bibliographic materials', 'Exclude quoted materials', and 'Exclude matches smaller than' (with a text input field set to 'A' words). At the bottom right, there are 'Cancel' and 'Create Assignment' buttons.

## Step 10

### Student Dashboard

1. Enter the Class ID and Enrollment Key provided by the instructor.
2. Click Submit to complete the enrollment process.

The screenshot displays the Turnitin Student Dashboard. At the top, a navigation bar includes the Turnitin logo, a user profile section for 'Sara ALZHRANI' with links for 'User Info', 'Messages', 'Student', 'English', 'Help', and 'Logout', and a menu with 'All Classes', 'Enroll in a Class', 'What is Plagiarism?', and 'Citation Help'. The main content area shows 'NOW VIEWING: HOME' and a section titled 'About this page' explaining the student homepage. Below this, a 'Welcome!' message instructs users to enroll in a class using a class ID and enrollment password. A yellow button with a green plus icon and the text 'enroll in a class' is prominently displayed, with a red circle and a white upward arrow pointing to it. An inset window on the right provides a detailed view of the 'Enroll in a class' form, which includes input fields for 'Class/section ID' (containing '53813889') and 'Enrollment key' (containing '123456'), and a 'Submit' button.

# Step 11

After clicking on the course name, the assignment page will open.

Step 12

Click the Open button to begin the file submission process.

AI Writing

Our AI writing assessment is designed to help educators identify text that might be prepared by a generative AI tool. Our AI writing assessment may not always be accurate (i.e., our AI models may produce either false positive results or false negative results), so it should not be used as the sole basis for adverse actions against a student. It takes further scrutiny and human judgment in conjunction with an organization's application of its specific academic policies to determine whether any academic misconduct has occurred.

Turnitin Usage Guide

73

After opening the report, the detection rate for AI-generated text is displayed.

The image displays two overlapping screenshots of the Turnitin report interface for a user named Sara ALZHRANI (CPCS498).

**Background Screenshot (Similarity Tab):**

- Overall Similarity: 22%
- 434 matches found with Turnitin's database.
- Page 1 of 83, 21777 words, 153% zoom.

**Foreground Screenshot (AI Writing Tab):**

- AI Writing: 77%
- 77% detected as AI
- The percentage indicates the combined amount of likely AI-generated text as well as likely AI-generated text that was also likely AI-paraphrased.
- Submission Breakdown:**
  - 169 AI-generated only (77%): Likely AI-generated text from a large-language model.
  - 1 AI-generated text that was AI-paraphrased (0%): Likely AI-generated text that was likely revised using an AI-paraphrase tool or word spinner.

**Document Content (Visible in Foreground Screenshot):**

going to implement each objective:

**1.10.1 Objective 1: Develop and Implement Advanced Natural Language Processing Techniques for Arabic Data**

To enhance the accuracy and depth of data understanding in Arabic, we will undertake the following steps:

- Data Collection:** We will gather data from various social media platforms (e.g., X, Facebook, Instagram) where users discuss local entertainment options. This data will be scraped using APIs, ensuring compliance with each platform's data usage policies.
- Preprocessing:** The collected text data will undergo preprocessing steps, including tokenization, normalization, and stemming specific to the Arabic language. We will also implement techniques to handle dialectal variations and slang.
